Including work by Jenna Banks, Sophia Goedert, Olivia Henderson, Lance Lokas, Amanda Mchardy, Rachel Schwartz, Maansi Srivastava, and Danielle Towers, the artists provide insight into new bodies of work. The breadth of subject matters, from Sufism and cattle ranching to self-portraiture and community gardening, underscores the urge to document and record the lives of those around us, including our own.

***New Favorites* is open to only authorized GWorld card holders. Members of the public may view the show through the gallery windows.**

Wednesday, January 20 - Friday, March 4, 2022
Wednesday - Friday, 12 - 4 p.m.

Brady Art Gallery
The Flagg Building
500 17th St., NW

Curated by students in the Fall 2021 History of Exhibitions class, taught by Lynn Matheny, the Luther W. Brady Art Gallery presents *Re/presentation*. An exhibition of photographs drawn from the Corcoran Study Collection, it explores how identity is mediated multiple times through the taking of a photograph and how what we present to the world is not always what is received by the viewer. Images by artists such as Harold Edgerton, Annie Leibovitz, and Garry Winogrand are divided into sections including *Gaze|Perception* and *Athleticism|Physicality*. The exhibition will be on view to the GW community and by appointment through March 4, 2022.

Wednesday - Friday, 12 - 4 p.m.

Brady Art Gallery

How do our memories reflect what transpired? How and what do we use to create a physical reminder? Humanity strives to create memorials and remember in many ways: through memorials, writing, and of course artistic representation. This Spring Selections show exhibits photographs, prints, and drawings from the GW Collection and Corcoran Study Collection centered around the subject of remembering and will be on view to the GW community and by appointment through March 4, 2022.

ARTIFICIAL INTELLIGENCE, DEEP LISTENING, AND THE "CRISIS" OF AUTOMATION

Thursday, March 10, 2022, 6 - 7:30 p.m.

Virtual event

Throughout the history of the recording industry, the creative practices of mixing and mastering engineers were viewed simultaneously as a dark art and a highly specialized skill set requiring years of training in critical listening. In the 2010s, the implementation of AI algorithms and deep learning techniques in mixing and mastering plug-ins made these techniques available to casual users with a single button click. This lecture, drawn from D'Errico's recently published book *PUSH: Software Design and the Cultural Politics of Music Production*, surveys the emergence of automation in the creative workflows of music producers, from AI drum machines and composition algorithms to the mixing and mastering "assistants" available in iZotope's suite of plug-ins. How have automated tools for music composition, post production, and distribution affected divisions of labor in the recording industry? Further, how might the ocular-centric design of software plug-ins shape the nature of musical listening, especially amid twenty-first-century debates about automation and digital surveillance?

Mike D'Errico is Director of Music Technology & Composition, Assistant Professor of Music & Computer Science, and Music Department Chair at Albright College, where he teaches courses in Music Production, Sound Design, Game Design, Songwriting, and User Experience Design. As an electronic music producer and sound designer, he makes hip-hop beats, electronic dance music tracks, and sound for video games and virtual reality applications.

Presented by the Programs of Music and Theatre & Dance

Book by Joe Masteroff / Based on the play by John Van Druten and stories by Christopher Isherwood / Music by John Kander / Lyrics by Fred Ebb

Directed by Gerrad Alex Taylor

Choreographer Jennifer J Hopkins

The Programs of Theatre & Dance and Music team up to present the revised 1987 version of Cabaret, the multiple Tony Award-winner from productions in 1967, 1998, and 2014. Set in Berlin during the waning days of the Weimar Republic as Nazis ascend to power, this dazzling musical focuses on the hedonistic nightlife at the seedy Kit Kat Klub and recalls when Bohemian living yielded to fascism.
